GlobalGAP is an internationally recognized standard for farm production. The Global G.A.P. standards that CCI offers are the GlobalGAP Integrated Farm Assurance (IFA); the Harmonized Produce Safety Standard (HPSS) as well as as Produce Handling Assurance (PHA). These standards are GFSI Benchmarked and cover Good Agricultural Practices, using the GlobalGAP normative documents applicable to these standards. IFA and HPSS cover crops growing, harvest and handling. IFA and HPSS is available as Option 1 Single-site, Multi-site as well as QMS/Option 2. PHA is a standalone Global G.A.P. standard for produce packing and storage. PHA is available as Option 1 Single-site and Option 1 Multi-site without QMS. CCI offers all these 3 standards for Global G.A.P. Sub-scopes: Fruit and Vegetable (FV), Combinable Crops (CC) and Hops (HO).  
 Please complete this application and return it to CCI by email, fax or mail.

Option 1 Individual Producer = single producer or single organization with single legal entities with a single production site (fields, farm, orchards, etc.)

Option 1 Multisite Operation = single producer w multiple sites that are not separate legal entities and operate with or without a QMS

Option 2 Producer Group = producer group where a Quality Management System (QMS) is mandatory

Sub-scopes: Fruit and Vegetables (FV) = Produce destined for human consumption; Combinable Crops (CC) =Grains, Pulses, Seeds or Crops for industrial use; Hops (HO) = Hops specific sub-scope. For more detailed info on Global G.A.P. sub-scopes please see Global G.A.P. General Information Product List v5.10 ([www.globalgap.org/documents](http://www.globalgap.org/documents)) or request information from CCI.
